

AHMED ABDELRAHEEM RIHAN BARAKAT

Junior Frontend Developer

01126970063 || ahmedbarakat9850@gmail.com || www.linkedin.com/in/ahmed-barakat-7499aa14b ||
Helwan - Cairo

Objective :

Motivated GIS Analyst with two years of experience at MaxAB Logistics (Amazon Project) in Cairo, specializing in GIS software including QGIS, ArcGIS, and SQL. Proven ability to manage spreadsheets and work with diverse database platforms. Recently completed a Frontend Development course at Route Academy and eager to expand expertise in React-based front-end development, particularly integrating interactive maps, by contributing to an innovative and dynamic team.

Education :

Helwan University

Bachelor Of Arts in Geography (GIS)

Grade : B- (GPA 2.7/4.0)

Cairo 2016- 2020

Courses :

Google Data Analytics Certificate : Coursera – 9/2023

Python Programming Basics : ITI – 10/2023

Database Fundamentals : ITI – 10/2023

Intro To SQL : Kaggle – 10/2023

Front End Developer Diploma : Route Academy – 8/2025

Experiences :

MAXAB Logistics :

TITLE : Distribution Sorting Center Team Leader

Developed and optimized a digital mapping system to sort products by location, enabling automated order distribution. Conducted comprehensive analysis of the sorting process to measure performance and identify improvements. Designed area segmentation strategies based on order density to enhance operational efficiency and delivery accuracy.

Maadi || from Jan 2024 – present (REMOTE)

ETQAN For Geoinformatics System :

TITLE : GIS Project Manager

Developed digital utility maps by integrating remote sensing data with field surveys. Built and managed a PostgreSQL/PostGIS geodatabase to collect, store, and analyze GIS datasets supporting municipal planning and infrastructure enhancement. Designed and delivered comprehensive training programs on GeoAI and Web GIS using JavaScript (React) and mapping libraries such as Mapbox , leaflet.js and Turf.js.

Zahraa El Maadi || from Mar 2024 – present (SEASONAL)

MAXAB Logistics :

TITLE : Geographic Information System Specialist

Allocated and distributed Amazon orders across Giza by geocoding addresses into map coordinates and managing spatial data in QGIS. Developed digital maps for retailers, generated analytical reports, and updated address records in the database to ensure data accuracy and operational efficiency.

Maadi || from Nov 2022 – Dec 2023 (HYPERD)

EDGE PRO for information Systems :

TITLE : Geographic Information System Specialist

Conducted block surveying by drafting layouts in Floor Plan Creator and georeferencing polygons onto a base map for spatial analysis and planning.

El Katameya || from Jun 2022 – Oct 2022 (ONSITE)

HASSAN ALLAM Holding :

TITLE : Land Syrveyor

Worked as a Land Surveyor Assistant on the Maspero Triangle Project, supporting field measurements, data collection, and mapping tasks to ensure accuracy in site planning and development.

Down Town || from Oct 2021 – Epr 2022 (ONSITE)

Projects :

GITHUB : <https://github.com/ahmedbarakat98>

Tools and Skills :

Programming Languages : JavaScript - Python .

Structure Languages : SQL – HTML – CSS.

Tools and Libraries: Mapbox – Leaflet.js – Turf.js – NumPy – Matplotlib –
Pandas – geoPandas – SeaBorn .

Programmes and Frameworks : REACT – VSCODE – CURSOR – ARCGIS – QGIS
– EXCEL – GOOGLE SHEETS – POSTMAN .
